TWO-WAY BUSINESS RADIO

AWR
ADVANTAGE
Plus™
TWO-WAY BUSINESS RADIO

Durability

The AWR Advantage and AWR Advantage Plus two-way radios were engineered from the ground up to eliminate common break and fall points.

Volume Control Guard

The AWR Advantage has a volume control that is aligned straight with the radio and has a guard so when dropped it will absorb the impact and protect the knob.

Heavy-Duty Steel Hinge

The AWR Advantage Swivel Belt Holster is designed a belt clip featuring a heavy-duty steel hinge that will keep your device where it belongs.

Flexible Reinforced Antenna

Antennas can be a common breaking point on radios because of their rigidity. The AWR Advantage was designed with a flexible reinforced antenna to combat this problem.

Recessed Headset Jack

The AWR Advantage has a recessed headset jack, it was designed this way to reduce the strain on this area.

Extensive Life Testing

The AWR Advantage has gone through and passed extensive life testing to evaluate the durability of the radio.

- Accelerated Life Drop Test
- Accelerated Life Headset Jack Test
- Accelerated Key Life Test
- Accelerated Life Speaker Test
- Accelerated Life Vibration Test
- Accelerated Life Temperature Tests
