 TWO-WAY BUSINESS RADIO

## Carrying Options

### Breakaway Lanyard

The Breakaway Lanyard features plastic snaps that ensures your safety by disconnecting if the lanyard is snagged, pulled or caught on something.

### Armband

The Armband is lightweight, adjustable, and can be used with the belt clip or holster. Simply clip the radio into the external pocket and use the Velcro closure to secure it to your arm.

### Swivel Holster

The Swivel belt Holster securely holds the radio in place but also allows the radio to easily be removed for quick use. It is designed with a heavy-duty steel hinge and belt clip that will keep your device where it belongs.

### Rubber Sleeve

The Rubber Sleeve provides additional protection for your radio from drops and impact.

### Belt Clip

The Belt Clip screws onto the back of the two-way radio for a semi-permanent way to attach the radio to your person.

### Waterproof Bag

The Waterproof Bag protects a radio from water damage in areas with high humidity, such as pools and bath areas. Includes an adjustable lanyard.
