

The Power of One-To-Many

Meet the Ultimate Power Tool

It helps you respond to your customers efficiently. It empowers your staff. It monitors your vital systems and instantly alerts you if there's a problem. The ODIN System from AWC is a rare breed in the world of communication technology. It's an innovative, proprietary device capable of delivering a multitude of interactive solutions.

Turning Tough Customers Into Satisfied Shoppers

With strategically placed ODIN System custom call boxes, your customers can, with the touch of a button, call for assistance. The appropriate employee is notified instantly via two-way radio, wireless phone, pager, or your public address system. Your customers get personal attention and the right answers fast. It's a win-win situation.

On The Job 24/7

The door in back that should never be open. The cooker that should never rise above 38 degrees. ODIN System will monitor vital systems 24 hours a day. If there is ever a problem, you'll know immediately via pager, two-way radio, wireless phone, over the public address system or other wireless devices. The ODIN System also gives you a variety of up-to-the-minute activity and performance reports for evaluation and planning purposes.

Customize Your ODIN System

Advanced Wireless Communications will design the ODIN System to fit your specific needs and provide you with the necessary peripheral devices. The ODIN System will enhance your loss prevention programs, solve customer service problems and bring you cutting edge features like telephone interconnect. From big box retail applications to corner store-sized solutions, the ODIN System combines imaginative, dependable technology with affordability.
