

ODIN CONNECT

ODIN Connect integrates into your existing legacy call light system saving thousands of dollars versus having to buy a completely new solution.

With ODIN Connect you will get state of the art Nurse Call capabilities: powerful dashboards, real-time reporting, automated voice communication over smart devices, two-way radios, and scrolling signs. In addition, this platform will integrate with other existing systems like: access control, fire alarm, and environmental systems. ODIN Connect is a reliable and logical solution to your growing needs and challenges.
